

# PHILOSOPHY ACROSS THE AGES

**Tuesday, February 10, 2026  
7:00 – 8:30 PM ET**

People of all ages are invited to attend a free interactive online event to explore the question:  
Is it ethical to hire private college advisors?

**No philosophy experience necessary!** The discussion will begin in small mixed-age groups, followed by a whole group conversation.

*Philosophy Across the Ages* is a program that empowers families, students, and participants of all ages to engage philosophically outside of classrooms. In a world that is increasingly spatially and socially segregated by age, it is more important than ever that we talk to each other across generations.
