I. COURSE DESCRIPTION

This course will provide an in-depth exploration of both the theory and practice of philosophical inquiry in K-12 schools. We will examine theoretical literature in the field, develop lesson plans for facilitating philosophy sessions in schools, create a community of philosophical inquiry in the seminar through the consideration of various philosophical questions, and collaborate to broaden and improve our work in schools.

Each student is expected to spend time in an elementary, middle or high school class engaging in philosophical inquiry with young people. U-Cars, if needed, will be available for transportation to schools.

Students enrolled in 495 must be undergraduate philosophy majors or minors or undergraduates with some experience in philosophy for children (completion of PHIL 205, PHIL 398, or other experience).

Students enrolled in 595 must be graduate students.

II. LEARNING OBJECTIVES

FOR 495: This seminar will give students:
